10th November 2026

INVITATION TO A 6 DAY SUSTAINABILITY/ ESG REPORTING SEMINAR FOR PUBLIC SECTOR ENTITIES WITH CPD HOURS TO BE HELD FROM 18TH TO 23RD JANUARY 2027 AT CORRIDOR SPRINGS HOTEL – ARUSHA

Course introduction

In August 2026, the National Board of Accountants and Auditors (NBAA) issued a pronouncement on sustainability reporting requiring public entities to prepare sustainability disclosures in accordance with IFRS S1 (General Requirements for Disclosure of Sustainability-related Financial Information) and IFRS S2 (Climate-related Disclosures), pending the issuance and effectiveness of relevant public-sector sustainability reporting standards.

Under Technical Pronouncement No. 1 of 2026, which amends the 2024 pronouncement, all reporting entities must include clearly identifiable sustainability disclosures in the Report by Those Charged with Governance accompanying their financial statements. Entities may also prepare a separate sustainability report, provided it complies with the applicable standards and does not replace the required disclosures. Public sector entities will adopt relevant IPSASB sustainability reporting standards once they become effective. In addition, reporting entities and audit firms must assess their readiness for sustainability assurance engagements under ISSA 5000. The pronouncement becomes effective for annual financial reporting periods beginning on or after 1 January 2027, with early adoption encouraged.

Auditax International conducts ESG and sustainability training programmes covering sustainability reporting standards, regulatory requirements and practical implementation. The training is designed to build the capacity of Boards, Management and relevant staff on IPSAS SR1, IFRS S1, IFRS S2, sustainability governance, materiality assessment, sustainability risks and opportunities, metrics and targets, and sustainability reporting implementation.

We have prepared a 6-day Sustainability Reporting Seminar on the following.

i. Overview of ESG/Sustainability Reporting

- Conduct targeted training for Board, Management and relevant staff on sustainability/ESG concepts and reporting requirements.
- Provide an overview of the NBAA Sustainability Reporting Implementation Roadmap, IFRS S1 and IFRS S2.
- Build practical understanding of sustainability governance, materiality assessment, sustainability risks and opportunities, metrics and targets, and reporting responsibilities.

ii. Sustainability Positioning and Materiality Assessment

- Review existing strategies, policies, governance arrangements, operations and sustainability-related initiatives.
- Assess current sustainability position and identify existing gaps and areas requiring improvement.
- Identify and map key internal and external stakeholders.

- Identify sustainability-related risks, opportunities and potential material sustainability topics relevant to your organization.
- Facilitate stakeholder and Management consultations to assess and prioritize material sustainability matters.
- Develop and validate a sustainability materiality matrix and prioritized list of material sustainability topics.

iii. Preparation of Sustainability Governance, Framework and Policy

- Review existing governance arrangements and determine how sustainability oversight can be integrated into the current structure.
- Develop an appropriate sustainability governance structure, including roles, responsibilities and reporting lines.
- Define responsibilities for sustainability coordination, data ownership, review, approval, monitoring and reporting.
- Develop a Sustainability/ESG Framework to guide the integration of sustainability into organization governance, strategy, risk management and operations.
- Develop a Sustainability/ESG Policy tailored to your organization mandate and operating environment.

iv. Review and Improvement of IFRS S1 and IFRS S2 Disclosures

- Review existing sustainability-related disclosures and assess alignment with IFRS S1 and IFRS S2 requirements.
- Assess the completeness and consistency of disclosures covering governance, strategy, risk management, and metrics and targets.
- Identify key disclosure gaps and areas requiring improvement.
- Review whether identified material sustainability risks and opportunities are appropriately reflected in the disclosures.
- Provide recommendations and proposed improvements to strengthen the quality, clarity and completeness of sustainability disclosures.

v. IPSAS SR1, Climate Related Disclosures

Expected Deliverables

- Sustainability/ESG training plan, schedule and customized training materials.
- Training attendance records and summary of key training outcomes.
- Sustainability Positioning and Gap Assessment Report.
- Stakeholder mapping and prioritized sustainability materiality matrix.
- Sustainability Governance Structure and Roles and Responsibilities Matrix.
- Sustainability/ESG Framework and Sustainability/ESG Policy.
- Review report on IFRS S1 and IFRS S2 disclosures, including identified gaps and recommended improvements.
- Understanding the requirements of IPSAS SR1, Climate Related Disclosures for Public Sector Entities.
